## PROFILE

Detail-oriented AI Data Annotator and Freelance Software Engineer with over 2 years of hands-on experience training, evaluating, and improving AI systems through high-quality data annotation and task review. Proven ability to follow complex guidelines, ensure annotation accuracy, and provide structured feedback to improve machine learning model performance. Experienced in text, image, and data labeling tasks, with strong analytical skills and technical background in software systems.

## SKILLS

**Remote Skills:** Data Annotation and Labelling, AI Model Training, Response Review, Prompt Evaluation, Remote and Freelance Collaboration

**Technical Skills :** Data Analysis, Python, SQL, PowerBI, React, Typescript and Tailwind CSS.

## EDUCATION

### KIRINYAGA UNIVERSITY

Bachelor of Science in Software Engineering

*Expected Graduation: October 2026*

## REMOTE WORK EXPERIENCE

### Upwork

AI Data Annotator

*January 2023 - July 2024*

- Completed data annotation tasks for AI and machine learning projects with high accuracy and consistency.
- Labeled and categorized text and structured data to support NLP model training.
- Reviewed and corrected AI-generated outputs based on detailed project guidelines.
- Maintained quality standards by validating annotations and minimizing errors.

### Remotasks

AI Training and Data Annotation

*September 2022 - March 2023*

- Contributed to AI training projects involving text annotation, response ranking, and data validation.
- Evaluated AI-generated responses for correctness, relevance, and safety based on defined rubrics.
